Response to Amendment

1. This action is responsive to amendment filed on Sep. 02, 2005. Claims 2, 8, 13, 14, 18, 20 were amended, claims 1, 7, 15, 16, 17 were cancelled and claims 23, 24, 25, 26, 27, were newly introduced. In the light of the applicant remarks and upon further examination of the claims further restriction is required.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. claims 18 - 20 are drawn to Computer to Computer Session/Connection Establishing, classified in class 709, subclass 227.
- II. Claims 2 - 6, 8 - 14 and 21 - 27, are drawn to Computer To Computer Data Routing, classified in class 709, subclass 238.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). Group I is drawn to an apparatus, which facilitates network-wide synchronization. Group II is drawn to scheduling of a broadcast coherency.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 2157

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

3. A shortened statutory period for response to this action is set to expire thirty days from the mailing of this communication. Failure to respond within the period for response will cause the application to become abandoned (35 USC 133). Extension of time may be obtained under provision of 37 CFR 1.136(A).
